

SPIRITUAL HEALING

Acknowledge God as the Only Power

THE POWER OF SOUL

Exceptional tape for deep study! It is very clear on discerning spiritual reality from the material sense of the appearance world. This is the highest development that we can have; understanding the metaphysics and the mystical. This tape is wonderful on understanding the body from a metaphysical and a mystical standpoint.

SPECIFIC TREATMENT ON SUBSTANCE, LAW, CAUSE & ACTIVITY

Entering the "All" -- When you turn within there is the most loving Being waiting there to satisfy every longing of the heart. This is a very good tape to study for specific treatment. It covers, in a contemplative meditation, the wisdom; Acknowledge God as the substance, law, cause and activity of all that is. Each aspect is taken in an extremely orderly and intelligent manner and gives us a taste of how to contemplate these ideas. It shows the development that takes place in the contemplative life. These four points relate to everything in our universe.

Withdraw Power from Effect

THE CROWN OF TRUTH

Pure beauty. Theme is withdrawing power from the world of effect and non reaction. There is only one power, God power. God's dominion is on my head like a crown of truth; an activity of truth that blossoms in us.

THE WAY OF TRANSLATION

This is a transformational and healing tape. Translation is the exchanging of the objects of sense into the idea of Soul, The illusory picture is never experience -- only God is experience. Jesus translated form even before the crucifixion -- but he doesn't do it for us. V tells the story of Lazarus.

Impersonalization

ILLUSION OR REALITY

This is a practical lesson on impersonalization. Judgment is a barrier to healing. On non-personalization; it is converting from the tree of the knowledge of good and evil to the tree of - life. First step in conversion is language; removing the names and labels. This is illustrated by personal experiences.

THE CANVAS OF CONSCIOUSNESS

Great secret of spiritual living is in understanding the nature of impersonalization. How can we be perfect except to be meek - quiet inside, a blank canvas is very quiet.

Release Desire

THOUGHT CREATES TIME AND SPACE

Great tape! How to deal with world thought; fasting the mind; How to be purified -- repentance. Thoughts are not power. How thoughts work. Joel's first 'Wisdom' exemplified. How war can be solved if we do not personalize.

TRUE IDENTITY

Great lesson on desire. Why it is important to understand temptation.

Fear Not

UNIFIED FIELD OF CONSCIOUSNESS

On spiritual discernment... We learn through suffering to be still, to be secret about unfoldment. They are like tender little plants. The human mind is antagonistic to spiritual unfoldment. When you understand the truth, it isn't from your intellect; it's from your soul. Very good tape to study -- learning to handle and understand fear -- seeing it disappear into its native nothingness through spiritual understanding.

Rest in the Presence of God

MEDITATION ON BEING

This is a good tape to study for new & old students. The last third is a meditation. It begins with the principle of the Christ truth; the Christ truth is omnipresent as individual being. The healing Christ is omnipresent Now. The realization of omnipresence is the only demonstration we have to make. As a lead into meditation -- divest yourself of all fear and hate of the appearance world, and stand naked before the Lord.

YOU ARE THE UNSEEN REALITY

Inspiring. This is a wonderful tape for starting each day; new infinite possibilities in every direction. Wonderful for loving yourself, having no condemnation for yourself. Great on dying daily in a positive way. Releasing.

World Work

MEDITATION ON UNION OF SOUL AND SPIRIT

Beautiful meditation on God's grace for mankind. Recognition of all the services on earth -- the God in the situation. The love in the situation through dedication and commitment is the God in the situation.
