

## **MYSTICAL UNION**

### **The Master Consciousness – Living in the Third Degree**

#### **CONSCIOUSNESS AS OMNIPRESENCE**

Contemplation of what I am conscious of -- God. Immeasurable are the ways; unfolding Itself as individual Being. The Consciousness that I am and you are is infinite; without measure. Consciousness formed your body; it transformed it from the baby body. Let Consciousness form you anew. The truth is -- all is in Consciousness. Harmony already is. All those of my household are healed or removed.

#### **THE MYSTIC CONTEMPLATES THE LIGHT**

**Excellent! Contemplative meditation on mysticism.**

#### **OUR SPIRITUAL DESTINY**

Wonderful experiences! There are joys and beauties that await us in living the monastic life. We must understand the nature of error, but there is no longer the drama of the human experience. This is where most people give up. They want the highs and the lows of the human concept of life. If we can pass through the second degree, we can live by unselfish love and press forward to the high calling. We can function as the love that meets the human need. Then the gentle presence guides us in ways we know not of.

#### **RECONCILE YOURSELF TO GOD**

We are a united universe with one infinite mind. Be thou reconciled to God -- release the mortal concept of yourself. Mind is the instrument through which the word is made flesh. Admittance of truth dispels carnal mindedness, and then I find my mind expanded. I am not limited by a carnal or mortal mind, which is limited, but I recognize that there is only one infinite mind and it appears as the forms in my universe. What God has not created is not created. (Side 2) Freedom and abundance come from not focusing on the problem. There is only one goal; to know Him aright. Declare your freedom in the name of I Am. That great I Am is a law unto my being. God cannot be limited to any form or effect. Therefore I cannot function from a limited sense or perception when I am reconciled to God. Indwelling spirit brings to our awareness the limited framework so we can release it.

## **Realization of I**

#### **WORSHIP WHILE YOU WORK**

A mystical tape on self realization and the I. A wonderful tape; Example of the shallow mind; Brother Lawrence story; Practical and protective work at the end.

## **Experiencing Oneness**

#### **THE GRAND COLOSSUS**

All about things intangible. Very deep and mystical. This entire class has the metaphysics and deep mysticism.

## **MEDITATION ON ONENESS**

With every meditation we have, our body is purified. Meditation is the way, not the end result. The result is that the Christ fulfills Itself in an individual way. We cannot take our problems of this world into prayer. Our problems do not have their origins in God. God does not know them, and in the presence of God every limitation disappears.

## **ONE WITH THE LAW OF LIFE**

This is a soaring, mystical tape on Oneness,. It starts by establishing God's law in us, releasing us from material belief through forgiveness, and leads us into a contemplative meditation on God and the nature of God. Do not look for material results from spiritual prayer. The only answer is the awareness of the presence of God.

## **Truth Revealed**

### **THE 7th SENSE**

A mystical message is to move out of the personal into the impersonal. We wrestle with trying to understand truth with our mental limited faculties. When we wake up to the realization that there is a presence that is greater than anything in the world - this presence of life and love created me to fulfill a holy purpose - a very unique one.

### **THE OCEAN OF CONSCIOUSNESS – I**

**Heavenly! Mystical! Great on world work... Immortality... Infinity... Oneness... Fulfillment... Wonderful on Consciousness is the substance of all form. No limitations to consciousness. The glory of God made manifest as an individual conscious experience.**

### **THE OCEAN OF CONSCIOUSNESS – II**

Wonderful on the nature of error - How to deal with appearances. All error is the acceptance of two powers.

### **THE ROBE OF THE INITIATE**

Reads from Joel about "the Robe." The robe itself carries its own fulfillment. Only in your robe do you find fulfillment, eternity and true being. Your robe is your abiding place -- your consciousness of truth and love. Explains our mission on earth and the way we develop our consciousness of grace. The last quarter of this tape is exceptional on world work and meditation and grace and our mission in life as spiritual students.
